

Website Handover Document

Official website of
Uchcha Madhyamik Vidyalaya Adla
उच्च माध्यमिक विद्यालय अदला
umvadla.in · UDISE 10280606804

This document records what has been delivered, how the website and its six supporting services are operated and renewed, what the school is responsible for, and what is and is not covered after handover. It is to be read with the **Website Development, Licensing & Handover Agreement** executed between the parties, and is referred to therein.

DOCUMENT CONTROL

PREPARED BY	Kumar Mangalam, 404/A, Vijay Complex, Rampur Road, Bazar Samiti, Patna – 800006, Bihar
FOR	Uchcha Madhyamik Vidyalaya Adla – Head Master, Chandan Kumar
HANDOVER DATE	
WARRANTY EXPIRES	 (30 days from handover)
VERSION	1.0
RECEIVED BY, FOR THE SCHOOL	

Contents

1. Project summary	03
2. What has been delivered	03
3. The six services that keep the site alive	04
4. Domain name – renewal and the critical date	05
5. Electronic mail accounts	06
6. Register of credentials	06
7. First actions on the day of handover	07
8. Renewal calendar	07
9. Updating content through the Admin Portal	08
10. Backups	08

12. Photographs of students and the DPDP Act, 2023	09
13. Warranty – what is covered and what is not	10
14. If the website goes down – check these first	11
15. Outstanding items to complete	11
16. Acknowledgement of receipt	12

How to use this document

This document is written for the person at the school who will look after the website – ordinarily the Head Master or a member of staff nominated by him. It does not assume technical knowledge.

Four sections matter more than the rest:

- **Sections 3, 4 and 8** – the six services and their renewal dates. The website depends on all six. If any one lapses the site goes down, and if the domain lapses the school email stops too. This is the commonest way a school website is lost.
- **Section 7** – what must be done on the day of handover, above all changing every password.
- **Section 12** – the school's obligations under the Digital Personal Data Protection Act, 2023 for the student photographs published in the Gallery.
- **Section 15** – items still outstanding on the site itself.

This document contains live credentials

Sections 6 and the Annexures to the Agreement carry live passwords, printed at the school's instruction. Until every password is changed as required by Section 7, this document must be kept under lock and must not be photocopied. Once the passwords are changed, the printed values cease to be live.

1. Project summary

SCHOOL	Uchcha Madhyamik Vidyalaya Adla — उच्च माध्यमिक विद्यालय अदला
ADDRESS	Adla, Naubatpur, Patna District, Bihar — 801109
UDISE CODE	10280606804
TYPE & MANAGEMENT	Bihar Government School — Department of Education, Government of Bihar
BOARD	Bihar School Examination Board (BSEB)
HEAD MASTER	Chandan Kumar
WEBSITE	https://umvadla.in
EMAIL ADDRESSES	umvadla@gmail.com · webmaster@umvadla.in · contact@umvadla.in
DEVELOPER	Kumar Mangalam — 404/A, Vijay Complex, Rampur Road, Bazar Samiti, Patna — 800006, Bihar

2. What has been delivered

2.1 The website — fourteen pages

NO.	ADDRESS	PAGE	WHAT IT CONTAINS
01	/	Home	Hero with crest and UDISE, notices ticker, statistics band, scrolling motto, about summary, academic programme cards, facilities, Head Master's message, gallery preview, admission status, location with map link and nearby distances
02	/about	About the School	History, Vision, Mission, school timings, board affiliation and management
03	/about/headMaster	Head Master's Message	Portrait, full message and attribution
04	/about/infrastructure	Infrastructure & Facilities	Drinking water, toilets, boundary wall; link to Mandatory Disclosure
05	/academics	Academics Overview	Medium of instruction and programme cards
06	/academics/secondary	Secondary (9–10)	Programme detail, subject scheme — Code 71485
07	/academics/senior	Sr. Secondary (11–12)	Programme detail, streams — Code 17355
08	/staff	Staff Directory	18 members with initials avatars, filterable by department
09	/gallery	Photo Gallery	Album grid with photo counts; lightbox viewer
10	/notices	Notices & Circulars	Filterable by Circular, Notice, Event, Holiday, Result; NEW flag; detail route per notice
11	/admission	Admission	Process steps, eligibility table, document checklist, fee structure, key dates, FAQ, enquiry form
12	/contact	Contact	Address, phone, email, office hours, map link and enquiry form
13	/mandatory-disclosure	Mandatory Disclosure	Statutory table — school details, management, land and building, staff counts, facilities
14	/admin	Admin Portal	Authenticated content management for notices, gallery, staff and page content

Site-wide: English and Hindi toggle, light and dark display modes, responsive layout for phone and desktop, crest and UDISE in the header, quick links and office hours in the footer.

Two pages are not finished

The **Downloads** and **Results** pages appear in the menu but show an “under construction” message. They are excluded from what has been delivered and from the warranty. If the school wants them completed, that is separate paid work under Clause 9 of the Agreement.

3. The six services that keep the site alive

The website is not one thing in one place. Six separate services work together, each with its own account, and all six are now in the school's name under umvadla@gmail.com. If any one of them stops, some or all of the website stops.

SERVICE	PROVIDER	WHAT IT DOES	WHAT HAPPENS IF IT LAPSES
Domain	Hostinger	The address umvadla.in that people type	Site unreachable; school email at the domain stops; domain may be lost to a third party
Front-end hosting	Vercel	Serves the pages people see	Site shows an error page
Back-end API	Render	Supplies notices, staff, gallery and admin functions	Pages load but are empty; Admin Portal stops working
Database	MongoDB Atlas	Stores all notices, staff records and content	All content disappears from the site
Media storage	Google Drive	Holds the photographs shown in the Gallery	Photographs stop displaying
Codebase	GitHub	Stores the source code of the site	Site keeps running, but no future developer can change it

Why the site is sometimes slow to open

The back-end service goes to sleep when nobody has visited for a while. The first visitor after that wakes it up, which takes up to a minute, and photographs may appear slowly during that time. This is normal behaviour for the service tier in use and is **not a fault**. If the school would prefer the site to respond instantly at all times, the back-end can be moved to an always-awake tier for a modest monthly cost — this is separate paid work.

All six accounts share one email

Every service is registered to umvadla@gmail.com, and the security codes for the database also arrive there. That one mailbox is therefore the key to everything. Protecting it — a strong password, two-step verification, and a recovery phone number held by the school office rather than by any individual — is the single most important security measure the school can take.

4. Domain name — renewal and the critical date

The domain **umvadla.in** is the school's address on the internet. It is registered through **Hostinger** in the school's own name, at the school's address, against umvadla@gmail.com. Nothing needs to be transferred.

PARTICULAR	DETAIL
Domain	umvadla.in — .IN, billed every 3 years
Registrar	Hostinger PTE, Singapore
Invoice	HSG-9475840 · Order hb_60412279
Registered on	08 September 2026
EXPIRES ON	08 September 2029
Amount paid	Rs. 1,799.00 + IGST Rs. 323.82 = Rs. 2,122.82 (paid in full)
Account holder	umvadla@gmail.com

Read this before anything else

If the domain is not renewed on or before **08 September 2029**, the website goes offline and both webmaster@umvadla.in and contact@umvadla.in stop receiving mail. After a grace period the domain is released and can be registered by anyone, including parties who buy up lapsed school domains to resell them. Recovery is then expensive and sometimes impossible.

Enter the date **08 September 2029** in the school diary now, set a reminder for **sixty days before**, and tell at least two members of staff. Do not rely on the reminder email alone.

The renewal will cost more than Rs. 2,122.82

The price paid included a first-term promotional discount of Rs. 898. The list price for the same three-year term was Rs. 2,697 before tax. When the domain comes up for renewal in 2029 the school should expect to pay approximately the undiscounted rate then prevailing, plus GST — likely in the region of Rs. 3,200 for three years, though Hostinger sets this price and it may change. **Budget for roughly Rs. 3,200, not Rs. 2,100.**

How to renew

- Sign in to Hostinger using umvadla@gmail.com and the password in Section 6.
- Open the Domains section, find **umvadla.in**, and choose renew.
- Renew for the longest term the school can afford — fewer renewals means fewer chances to forget.
- Keep the receipt in the school file and write the new expiry date into Section 8 of this document.

5. Electronic mail accounts

ADDRESS	WHAT IT IS FOR	PROVIDER
umvadla@gmail.com	Primary institutional correspondence; Google account recovery	Google
webmaster@umvadla.in	Registrar, hosting and technical notices	Domain mail
contact@umvadla.in	Public contact address published on the website	Domain mail

webmaster@umvadla.in must be monitored

Renewal warnings and registrar verification notices go to this address, not to the Gmail account. Domains have been lost because the only warning arrived in a mailbox nobody opened. Either check it weekly, or set it to forward automatically to umvadla@gmail.com so everything lands in one place.

Controlling the Google account properly

Whoever controls the recovery phone number and recovery email of a Google account controls that account, whatever the password. Since all six services and the database security codes depend on this mailbox, changing both to school-held details on handover day is essential.

6. Register of credentials

Full values are printed at **Annexure 1** and **Annexure 2** of the Agreement. Every one must be changed on handover day, after which the printed values are no longer live.

NO.	ACCOUNT	USERNAME	CHANGED ON	BY
01	Hostinger — domain	umvadla@gmail.com		
02	Vercel — front-end	umvadla@gmail.com		
03	Render — back-end	umvadla@gmail.com		
04	MongoDB Atlas — database	umvadla@gmail.com		
05	MongoDB Atlas — database user	umvadla_db_user		
06	GitHub — codebase	UMVAdla		
07	Google account — mail & Drive	umvadla@gmail.com		
08	Website Admin Portal	admin1		
09	Website Admin Portal	admin2		
10	Back-end secrets (Annexure 2)	4 values marked Secret		

7. First actions on the day of handover

Complete all nine on the day the credentials are received. Until they are done, the school does not have exclusive control, and the passwords printed in this handover pack remain live.

☐	ACTION	DONE BY	DATE
☐	Change the password of every account in Section 6		
☐	Change the Google account recovery phone and recovery email to school-held details		
☐	Enable two-step verification on Google, Hostinger, Vercel, Render, GitHub and Atlas		
☐	Rotate the four Secret values in Annexure 2 and redeploy the back-end		
☐	Change both Admin Portal passwords (admin1, admin2)		
☐	Enter the domain expiry date 08 September 2029 in the school diary		
☐	Nominate a staff member responsible for the website, and a deputy		
☐	Take and store a first backup (Section 10)		
☐	Confirm in writing to the developer that all passwords have been changed		

8. Renewal calendar

Complete this on handover day and update it after every renewal. Copy it into the school diary.

SERVICE	EXPIRES / RENEWS	REMIND FROM	APPROX. COST	RENEWED ON
Domain — umvadla.in	08 September 2029	60 days prior	~Rs. 3,200 / 3 yrs	
Vercel — front-end		30 days prior		
Render — back-end		30 days prior		
MongoDB Atlas		30 days prior		
Google storage	Quota based	At 80% full		
SSL certificate		30 days prior	Usually automatic	

Each academic session

- Check every renewal date above and confirm the payment details held by each provider are current.
- Review the site for outdated information — old notices, last session's dates, staff who have left.
- Confirm parental consents for published photographs remain valid; remove photographs where consent is withdrawn or the student has left.
- Update the Mandatory Disclosure page with current staff and infrastructure figures.
- Take a fresh backup and store it away from the server.

9. Updating content through the Admin Portal

ADDRESS <https://umvadla.in/admin>

LOGINS PROVIDED admin1 · admin2

STAFF TRAINED on

9.1 What the school can change itself

ITEM	EDITABLE IN ADMIN	NOTES
Notices & circulars	Yes	Choose the correct type — Circular, Notice, Event, Holiday or Result — so filtering works
Photo gallery albums	Yes	Consent must be verified before uploading — see Section 12
Staff directory	Yes	Keep the count consistent with the Mandatory Disclosure page
Page content	Yes	
Mandatory Disclosure figures		Statutory page — keep current
Page layout and design	No	Requires paid work under Clause 9
Downloads / Results pages	Not built	Outside delivered scope

9.2 Before publishing anything

- Is the information accurate, and approved by the Head Master?
- If it shows a student, is parental consent on record? (Section 12)
- Does the school own the image? Do not publish pictures taken from the internet.
- Have names, dates and figures been checked? A published error in examination or fee information causes real difficulty.
- Has the old notice this replaces been removed?
- Never publish a test entry. Anything typed to “see if it works” is visible to the public immediately.

10. Backups

All website content lives in the MongoDB Atlas database; photographs live in Google Drive. From the handover date, backups are the school's responsibility.

ATLAS AUTOMATIC BACKUPS (confirm what the current Atlas plan includes)

DRIVE MEDIA COPIES

MANUAL BACKUP PROCEDURE

WHERE COPIES ARE STORED

- Take a backup **before** any significant change, not after.
- Keep at least one copy outside the Atlas and Drive accounts — a school computer or an external drive.
- Test once a year that a backup can actually be restored. An untested backup is not a backup.

11. Account security and hygiene

- **Protect umvadla@gmail.com above all.** It holds all six services and receives the database security codes. If it falls, everything falls.
- **Two-step verification** on every account. This one measure prevents most takeovers.
- **Different passwords** for each service. If one leaks the others must not follow.
- **Recovery details held by the school**, not by an individual. When a staff member leaves, their personal number must not remain the route back into the school's accounts.
- **Change passwords whenever a person with access leaves**, without exception and without treating it as a mark of suspicion.
- **Never send passwords by WhatsApp or ordinary email.** Hand them over in person.
- **Keep a written list** in the school safe of which accounts exist and who holds access — the list, not the passwords.
- **Do not install code or plugins from unknown sources.** This is the commonest route to a defaced school website.

12. Photographs of students and the DPDP Act, 2023

The Photo Gallery publishes photographs from school events. Under the **Digital Personal Data Protection Act, 2023**, the school is the **Data Fiduciary** and carries the legal obligations. The Act provides for substantial penalties, and children's data is treated with particular strictness.

REQUIREMENT	WHAT THE SCHOOL MUST ACTUALLY DO
Verifiable parental consent <i>Section 9</i>	Before publishing any photograph or name of a student under 18, obtain written consent from the parent or guardian and retain it. A clause on the admission form covering website and publicity use is the practical way.
Record of consent	Keep signed forms in a file producible to the Data Protection Board of India. Consent that cannot be evidenced counts as consent not obtained.
Withdrawal of consent	A parent may withdraw at any time. Provide a way to ask, and remove the photograph within a reasonable period.
No tracking or targeted advertising <i>Section 9(3)</i>	Do not add advertising or behavioural tracking to the website. Prohibited outright where children are concerned.
Privacy notice <i>Section 5</i>	Publish a privacy notice stating what data is collected, why, and how rights may be exercised. Not yet present on the site.
Grievance officer	Name a member of staff and publish their contact details. Not yet present on the site.
Breach notification <i>Section 8(6)</i>	If data leaks or the site is hacked, inform the Data Protection Board of India and the affected persons.

Practical advice

Add a consent clause to the admission form covering use of the student's photograph on the school website, prospectus, notice board and social media, with a box the parent may tick to decline. Keep a list of students whose parents declined and check it before publishing. This single step resolves most of the obligation.

Where consent is uncertain, prefer photographs in which individual students are not identifiable — wide shots of assemblies and functions rather than close portraits.

13. Warranty – what is covered and what is not

WARRANTY PERIOD 30 calendar days from the handover date

EXPIRES ON

RESPONSE TIME Work commences within 3 working days of written notice

NOTIFY IN WRITING TO

COVERED FREE, WITHIN 30 DAYS

- A page that does not load or displays wrongly
- A link that does not work
- The contact or admission form failing to submit
- Layout broken on phone or tablet
- Admin Portal not saving a change
- A function listed in Schedule A not performing as described

NOT COVERED – CHARGEABLE

- The Downloads and Results pages
- Any new page, feature or function
- Content updates and text changes
- Design or layout changes
- Slow first load caused by the sleeping back-end
- Anything broken by a change the school or another party made
- Consequences of non-renewal or hacking
- Anything at all after the 30 days

13.1 After the warranty period

Once the 30 days expire the developer is under no continuing obligation. Any further work – including fixing a fault, adding a feature, completing the Downloads or Results pages, activating email or SMS one-time passwords, or moving the back-end to an always-awake tier – will be undertaken only under a **separate written work order signed by both parties, on a paid basis**, stating scope, charge and timeline before work begins. The developer is free to accept or decline. Indicative rates are at Schedule E of the Agreement.

Access during the warranty period

Because the school now holds every account, the developer will need temporary access to diagnose anything reported. Grant it promptly on request and withdraw it once the work is done. If access is delayed, the warranty obligation is suspended for that period and the 30 days are not extended.

14. If the website goes down — check these first

STEP	CHECK	WHAT IT MEANS AND WHAT TO DO
1	Is it just slow rather than down?	Wait a full minute. The back-end sleeps when idle and takes time to wake. Not a fault.
2	Has the domain expired?	Renew through Hostinger immediately. The most likely cause after a long period.
3	Do pages load but show no notices or staff?	The back-end or database is down. Check Render and MongoDB Atlas for a suspended or unpaid account.
4	Do photographs alone fail to show?	Google Drive or the media proxy. Check the Drive account and its storage quota.
5	Any unpaid invoice or failed card on any of the six accounts?	Settle it; service usually restores within hours.
6	An unanswered verification email in webmaster@umvadla.in?	Complete the verification. Domains are suspended for this.
7	A security warning rather than a blank page?	The SSL certificate has lapsed. Renew through Vercel or the host.
8	Did somebody change something just before it broke?	Restore the most recent backup.
9	None of the above	Contact the relevant provider's support. If within warranty, notify the developer in writing.

15. Outstanding items to complete

Noted at the time of handover. These are for the school to complete or to commission; none is a defect in the delivered work.

☐	ITEM	OWNER
☐	Telephone number still shows the placeholder +91 XXXXX XXXXX on Contact and in the footer	School — supply number
☐	Homepage counters display 0 Classes, 0 Teachers, 0 Students	School — enter figures in Admin
☐	Staff page lists 18 members; Mandatory Disclosure states 15 teaching + 2 non-teaching	School — reconcile
☐	Mandatory Disclosure shows "To be updated" for the introduction and for Playground	School — complete
☐	School history described as "being compiled" on the About page	School — supply text
☐	Privacy notice under DPDP Section 5 not yet published	School — required by law
☐	Grievance officer not yet named or published	School — required by law
☐	Parental consent records for gallery photographs	School — required by law
☐	Downloads and Results pages incomplete	Paid work if wanted
☐	Email and SMS one-time passwords not configured	Paid work if wanted

16. Acknowledgement of receipt and handover

To be signed by the school within seven days of the handover date, per Clause 3.2 of the Agreement. If it is not signed and no defect is notified within that period, the deliverables are deemed accepted in full.

The school hereby acknowledges and confirms that:

☐ **CONFIRMATION**

- ☐ The website at **umvadla.in** has been delivered and is functioning, comprising the fourteen pages listed in Section 2.1.
- ☐ The crest and branding files listed in Schedule B of the Agreement have been received.
- ☐ All credentials at Annexure 1 and all environment variables at Annexure 2 have been received.
- ☐ All six services stand in the name of the school under umvadla@gmail.com, and the school accepts sole responsibility for their renewal, payment and security.
- ☐ Every password has been changed and every Secret value rotated, and the Google account recovery details updated to school-held particulars.
- ☐ The school has read Section 12 and accepts its obligations as Data Fiduciary under the DPDP Act, 2023 in respect of student photographs.
- ☐ The school understands that the Downloads and Results pages are not delivered, and that the warranty runs for 30 days only.
- ☐ The school understands that a slow first load caused by the sleeping back-end is not a fault.
- ☐ Training has been imparted to the nominated staff, or the school has elected to proceed without it.
